

## WHAT

*Awake is a local student conference that is founded on the belief that God has a unique calling on every student's life. Our mission is to help stir young people's faith. That they might wake up to God's purpose for their life. We believe that God has something waiting just around the corner. What you're facing right now isn't a wall, it's an invitation. What if your greatest freedom, joy and fulfillment were on the other side? We were designed for something greater. Our hearts are longing for more.*
